

Level 5 Safeguarding Adults for Managers Accredited (Refresher) Course

Who is this course for?

This course is aimed at practitioners who completed the full Level 5 Safeguarding Adults for Managers Accredited Programme, over three years ago, and now require an update.

The Level 5 Safeguarding Adults for Managers Accredited Programme is valid for three years, and after this period, practitioners who completed the course must undertake an update.

Why should I complete this course?

There have been significant changes to practice over the past two years. New ways of working have fundamentally challenged safeguarding practice, demanding from practitioners the ability to think creatively and utilise technology in new ways to work proactively.

In a rapidly changing environment where multiple and dynamic risks present, practitioners must be able to act promptly drawing confidently on both relevant legislation and case law.

What is covered in this course?

Practitioners will get the opportunity to consider and apply new case law to their own practice. They will learn about updates in legislation such as changes to the MCA (Mental Capacity Act) Code of Practice and implementation of the LPS (Liberty Protection Safeguards).

Practitioners will explore pro-active strategies in relation to reducing restrictive practices and will also get the opportunity to learn about how Root Cause Analysis can aid in the analysis of incidents where unexpected or avoidable injury has resulted in harm.

Course Learning Outcomes:

- Describe the key themes from recent Safeguarding Adults Reviews and how learning can be applied to own practice.
- Give examples of workforce development strategies that enable staff to work in pro-active ways.
- Describe how Root Cause Analysis can aid service improvement.
- Identify updates in case law that impact safeguarding practice.
- Explain the changes from the Deprivation of Liberty Safeguards (DoLS) to Liberty Protection Safeguards (LPS).
- Identify the interface between the Mental Health Act and the Mental Capacity Act.
